## Newsletter: November 2011

Dear Friends

As the season is coming to an end we reflect on the 3 months of superb hunting. We hunted some in spectacular areas and made some great friends ☺

From special areas in the Selous game reserve in Tanzania, to the Kalahari of South Africa, the areas that we hunted were as diverse as the people that hunted on them. A great time was had by all and the trophies that we harvested were nothing short of phenomenal!

Thank you for everyone that helped to make this year a great success for us and we are looking forward to welcoming you back with the White Lion Safaris team.

Regards,  
*Ricus and Nelia de Villiers*
